I-FORM INTENSITY

A collection designed to provide a safer solution for your vision with the environment as our focus.

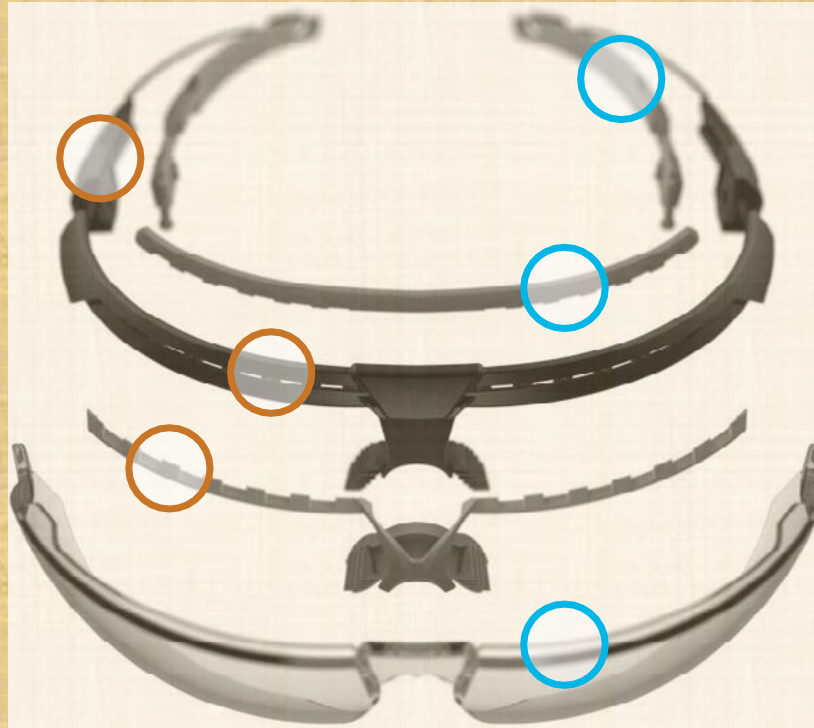

RADICALLY SUSTAINABLE INNOVATION

BIOBASED

RECYCLED

○ **BIOBASED:** Beginning with castor seeds, which are turned into castor seed oil. Providing the base material for our pellets which make up the core of our frames made from this sustainable material as an Eco-Friendly alternative to the petroleum

based frames used in most Industrial & Safety eyewear.

○ **RECYCLED:** It's estimated that our oceans contain over 200 metric tons of plastic. By collecting, recycling and reusing ocean plastic waste, we create a sustainable material while reducing pollution, greenhouse gases, and energy consumption.

DISTORTION-FREE TXS OPTICS™

INTRABLOCK™

Permanent 100% UVA, UVB and UVC protection infused into the lens, not coated so it never wears off.

Patented Venting System

Diamond Shield Coating
6X More Scratch Protection

ANSI Z87.1+ CSA, EN166
Protection

DIAMOND SHIELD

ANTI SCRATCH

Offering enhanced durability and everlasting visual clarity our proprietary and molecularly bonded Diamond Shield both prevents and fills irregularities created by abrasions and daily use.

FOG HAMMER

ANTI-FOG

The hydrophilic Fog Hammer coating eliminates fog by smashing vapor across the surface of the lens through rapid absorption. Dispersing across the lens surface creating a microscopic barrier using vapor to repel itself across all environments.

PATENTED DESIGN

GRANTED PATENTS: U.S. PATENT NO. 7325919, U.S. PATENT NO. 7524054, U.S. PATENT NO. 8967800, U.S. PATENT NO. 9527252,

The image shows the retail packaging for the safety glasses. It features a blister pack containing three pairs of glasses: two clear and one yellow. The packaging is black and orange, with the "I-FORM" logo and various product features listed. To the right of the blister pack is a diagram of the glasses' arm design, showing how it fits around the ear and head. Below the diagram is a section titled "THE BEST SAFETY IN SIGHT" with a list of features and a QR code.
